

Course Title

Developing Creativity within the Early Years

Open Afternoon:

We will explore how providing a stimulating and safe environment is essential for children to be able to express themselves creatively and take risks.

Appreciate how providing high quality play opportunities and exciting enabling environments increases creativity

Target Audience

This training is suitable for all Early Years and Foundation Stage practitioners and Students.

Course Objectives:

- To enable children to have the freedom and opportunity to create and think critically
- To explore beginning with children's interests and supporting their participation and involvement
- To develop the provision of exciting and enjoyable arts experiences to support and inspire new learning.
- Facilitating environments to encourage children's individual ideas and development

Practitioners will observe Early Years staff

- Helping young children to develop their **creativity** by providing a **creative** environment.
- Helping children to build their skills through play, behaving creatively themselves and praising children's **creative** efforts.
- Recognising the importance of children learning in an environment that encourages **exploration** and **active learning** experiences.
- **Encouraging creating and thinking critically** highlighting the value of children having and **developing** their own ideas, making links between ideas, and **developing** their own ways of doing things
