

Jubilee Street – New Build Homes Update

July 2017

We wrote to residents November 2016 to advise you that the Local Planning Authority had granted planning consent for the new homes proposed for development on Jubilee Street on 1st November 2016.

The Council have been consulting with local residents on the proposals for this site since August 2015. An application for planning permission was submitted on 2nd August 2016 and we are pleased to report that the development will now go ahead following the approval received from the Planning Authority.

The proposal to build on Jubilee Street is part of a wider programme being undertaken by the Council. The proposed development will provide 24 affordable homes with a mix of 1, 2, 3 and 4 bedroom flats and will include wheelchair accessible flats. We anticipate full construction works to begin early 2018

Following a procurement process, the Council have appointed Bouygues UK (BYUK) as the main contractor to develop the designs and take the project forward. You may notice BYUK representatives around to the estate carrying out inspections and investigation works on site to progress the designs.

BYUK will require continuous access to the site to carry out below ground surveys and investigation works. We are therefore in the process of relocating existing resident parking from the site and wherever possible find them alternative bays. The site will be closed off to the public and secured for Health & Safety reasons from August 2017.

If you would like to view the consented application and its associated documents, you can do so on the council's website using the following link:
