

Jubilee Street – New Build Homes Update

November 2016

On 1st November 2016 the Local Planning Authority granted planning consent for the new homes proposed for development on Jubilee Street car park.

The council have been consulting with local residents on the proposals for this site since August 2015. An application for planning permission was submitted on 2nd August 2016 and we are pleased to report that the development will now go ahead following the approval received from the Planning Authority.

The proposal to build on Jubilee Street is part of a wider programme being undertaken by the Council. The proposed development will provide 24 affordable homes with a mix of 1, 2, 3 and 4 bedroom flats and will include wheelchair accessible properties.

This scheme was approved by the Local Planning Authority under delegated authority as the required threshold for an application to be considered by the Development Committee was not reached. Only applications receiving twenty or more planning objections will go before the Committee. One objection was received for the Jubilee Street application.

Now that planning approval has been received, work can begin on appointing a construction company to deliver the homes, with a view to commencing works on-site in the second half of 2017. We will write to you before then to update you on the timetable for the construction phase once a builder has been appointed.

If you would like to view the consented application and its associated documents, you can do so on the council's website using the following link:
