

Minor Corrections to Supporting Information

1.1 This document outlines some minor corrections proposed to the evidence documents relating to the consultation on the Revised Draft Charging Schedule.

Table 1: Corrections to Documents

Document	Correction	Justification
Community Infrastructure Levy: Viability Study (August 2013)	Removal of multiple references to '(over 280 square metres)' in respect of the definition of 'Convenience based supermarkets and superstores and retail Warehousing'.	This is to ensure consistency with the Revised Draft Charging Schedule which does not propose to differentiate this type of retail based on this size threshold.
Revised Draft Charging Schedule (October 2013)	Amendment to paragraph 3.1 of Appendix 2. The reference to the date of 6 th April 2014 being the date when 'the use of planning obligations for infrastructure will be largely scaled back' is amended to the 6 th April 2015.	This is to reflect a proposed change to the CIL Regulations 2010 (as amended).
