

Different types of parking bays

When you are in a controlled parking zone, you will see a range of bays marked out on the road with white lines, with signs erected to indicate who may park in these bays.

During the controlled hours, you can only park in a bay if your vehicle meets the criteria specified on these signs.

Please note that on public holidays the controls on parking bays do not apply.

We have different types of bays to reflect different types of parking users:

- resident permit bay
- permit holders bay
- business permit bay
- permit and pay and display bay
- personalised disabled bay
- car club bays
- suspension signs
- doctor's bay.

Resident permit bay

Permit holders bay

Business permit bay

Personalised Disabled bay

Permit and pay and display bay

Suspension sign.
